

We will look for records to verify your attendance at each school. A search will be done for quarterly returns, which usually list the students and the number of days each student attended in that three-month period. If the student name cannot be located in those records or quarterly returns do not exist for that school for that period of time, then a search will be made for other records to show your attendance at the school.

NOTE: If you would prefer that we send this information to someone else (for example, your lawyer) rather than sending it to you, please sign below and provide the name and address.

I wish the records retrieved in response to this request to be sent to:

Please print clearly.
